

Urban Planning and Tourism Development Al Uquair, Land Use Planning, Saudi Arabia

Project period
2007

Services provided

Master planning, land use planning, urban and landscape planning, traffic planning, utilisation and tourism concept

Technical details

A 6.6 km² area is to be developed for tourism utilisation around a historic town with harbour and in the vicinity of the oasis Al Suwad. Apart from the new town centre the development will feature a marina, commercial facilities, hotels, a “medical city” with golf resort, residential quarters, villa zone, urban parks, green corridors and a beach landscape.
