

# REDEVELOPMENT OF TOWN CORE TAUFKIRCHEN

## Redevelopment of Centre Taufkirchen a.d. Vils, Germany

**Project period**  
2010

**Construction cost**  
1.5 M € approx.

### Services provided

Organisation and implementation of traffic consensus, development of traffic facilities, discussions with citizens and administration

### Technical details

Within the framework of the rehabilitation of the urban centre, and in cooperation with urban planners and retail experts, the traffic volume in the centre of Taufkirchen is to be handled in compliance with urban development parameters. Special consideration is to be given to pedestrian/cyclist traffic as well as to stationary traffic.
